HOT LAUNCH² BY TOUR EDGE DRIVERS

REAR SOLE WEIGHT

Creates a deep CG for an easy launch and greater forgiveness on off-center hits

OFFSET HOSEL

For maximum slice-fighting control

ADJUSTABLE LOFT

Adjustable model features loft options from 8.5 to 12.5 degrees in 1 degree increments

The new 460cc Hot Launch 2 driver is available in two models and offers players quality engineering and performance. The forged four-piece titanium head features variable face thickness (VFT) technology for maximum power and distance from more contact points on the face.

- The adjustable model features a deep cup face design for exceptional power.
- Easy-to-use adjustability with eight different loft options from 8.5 to 12.5 in one degree increments.
- Slice-fighting technology in the offset model allows the face to 'square up' at impact for a straighter ball flight.
- New design is even more offset than ever to ensure your straightest drives.

CUSTOM AFFORDABILITY

Built to your specifications including length, shaft flex and grip size.

HOT LAUNCH 2 DRIVER	RESULT	LOFT	LIE ANGLE	VOLUME	UST MAMIYA LENGTH
8.5	Straight, Lowest Flight	8.5°	57.0°	460cc	45"
9.5	Straight, Mid Flight	9.5°	57.0°	460cc	45"

FAIRWAY WOODS

REAR SOLE WEIGHT

Creates a deep CG for an easy launch and greater forgiveness on off-center hits

OFFSET HOSEL

For maximum slice-fighting control

Available in two models, Hot Launch 2 fairway woods feature a 450 SS hyper steel construction and variable face thickness technology to deliver exceptional forgiveness and unsurpassed distance.

- Available in standard and offset models. The offset model is designed to provide maximum slice-fighting control.
- Maraging steel face with variable face thickness technology provides powerful contact from more points on the face.
- Rear sole weight moves the center of gravity deep in the head for easy launch and increased accuracy.
- Shallow face design and low center of gravity delivers high launch and lower spin for maximum distance.

CUSTOM AFFORDABILITY

Built to your specifications including length, shaft flex and grip size.

HOT LAUNCH 2 FAIRWAY WOOD	LOFT	LIE ANGLE	FACE ANGLE	UST MAMIYA LENGTH
#3 Wood	15.0°	57.0°	SQUARE	43.5"

HYBRID

REAR SOLE WEIGHT

Creates a deep CG for an easy launch and greater forgiveness on off-center hits

VARIABLE FACE THICKNESS

Provides maximum power and distance from more contact points

Club head is constructed from 450 SS hyper steel and a forged maraging steel face featuring variable face thickness (VFT) technology. This construction design delivers the ultimate in forgiveness and power.

- Tour-proven head shape and reduced face progression for improved workability.
- Redesigned face is thinner for higher COR and greater distance.
- Rear weight located in the sole of the club helps create a deep center of gravity for an easy launch and added forgiveness on off-center hits.
- Low-profile face design combined with the lower center of gravity position makes this hybrid incredibly easy to launch.

CUSTOM AFFORDABILITY

Built to your specifications including length, shaft flex and grip size.

HOT LAUNCH 2 HYBRID	LOFT	LIE ANGLE	FACE ANGLE	UST MAMIYA LENGTH

IRON-WOOD

HEAVY SOLE

Positions more weight below the ball for high-flying shots

Available individually or as a complete set, the newly designed Hot Launch 2 Iron-Wood series features increased head volumes for more forgiveness and a thin forged face for more spring-like effect and distance. This new Iron-Wood surpasses all hybrid expectations.

- Combines a hollow hyper steel body with a forged super-thin steel face with variable face thickness for maximum ball speed.
- Heavy sole and hollow body increases launch angle and forgiveness on every shot.

HOLLOW HYPER STEEL BODY

Maximizes stability so every shot is powerful and accurate

IRONS

TOE WEIGHT TECHNOLOGY

Creates an expanded sweet spot and maximizes stability on impact

Hot Launch 2 irons incorporate an expanded undercut cavity to provide maximum forgiveness and consistent performance. Featuring advanced toe weighting, the soft 431 stainless steel design provides great accuracy and feel for players of all levels.

- Vast undercut cavity allows weight to be moved away from the face and into the sole for a higher MOI, launch angle, and enhanced forgiveness.
- Notch hosel featured in the 3 through 7-irons removes weight from the heel and repositions it to the toe, elongating the sweet spot for unsurpassed forgiveness.
- 8-iron through PW feature a more traditional set up designed to deliver exceptional feel and control on approach shots.

CHIPPER

37° LOFT

Is ideal for versatile shot-making and delicate speed control.

Features a heavy, super-wide sole that cuts through rough easily for consistent, clean contact from greenside lies.

- For maximum responsiveness, the club features a 431 stainless steel head that delivers a soft feel and a delicate touch.
- For added forgiveness, the chipper's design also incorporates a radiused sole that minimizes turf contact and a slender neck that eliminates "grabbing" by longer grass.
- The elongated grip offers multiple shot making choices: choke down on the grip for shorter shots along the green banks; or with a standard grip, attack from around the green.

HOT LAUNCH 2 CHIPPER	LOFT	LIE ANGLE	STEEL LENGTH
Chipper	37.0°	67.0°	33"/35"

Available in left and right hand.
Headcover included.
