

More Top Finishes for Tour Edge on the PGA Tour Champions this week at the 3M Championship

Fifteen Tour Edge clubs were in play this week at the 3M Championship on the PGA Tour Champions, leading to a 5th place finish by Exotics CBX staff player Tim Petrovic, as well as a 10th and 13th place finish by Exotics CBX hybrid staff players Tom Lehman and Duffy Waldorf, respectively.

Over 40 different PGA Tour Champions professionals have put over 220 Exotics CBX clubs into play this season, propelling the on-fire Tour Edge brand to three victories, eight runner-up finishes, 21 Top 5 and 37 Top 10 finishes in only 17 events played.

Petrovic played three Exotics CBX clubs in the Top 5 finish in Minnesota: an Exotics CBX 3-wood, 5-wood and 19-degree Exotics CBX Iron-Wood. Petrovic has three runner-up finishes this season with this club setup and has earned four Top 10 finishes and nine Top 25 finishes overall. This has helped him to currently rank 8th in the 2018 Charles Schwab standings with \$997,713 earned on the year.

Lehman earned his 7th Top 10 finish of the year at the hometown 3M Championship with an 18-degree Exotics CBX hybrid with a Project X HZRDUS Black 105 shaft. He ranks 12th on the money list with \$703,847 earned this season.

Only Exotics staffer Scott McCarron out ranks these two players in the Exotics CBX staff rankings. McCarron was off this week, but still sits in 5th place in the Charles Schwab Cup standings with \$1.2 million earned.

Waldorf earned his 8th Top 25 finish of the season by making an eagle on the 18th hole Sunday playing a 17-degree Exotics CBX hybrid with a Fujikura Atmos 8 Blue X shaft. He now ranks 27th on the 2018 PGA Tour Champions money list.

The PGA Tour Champions continues August 17th with the Dick's Sporting Goods Open in Endicott, New York.

About Exotics

CBX Exotics CBX are the only metal woods ever designed to feature a Titanium face, stainless steel body and carbon fiber sole. The Exotics CBX hybrid's higher CG is located slightly forward in the club head through the use of a carbon fiber in the sole, which is significantly lighter than stainless steel. This helps to increase ball speed and reduce spin, which makes for less dispersion. Tour Edge's extremely thin Beta-titanium cup-face enlarges the ideal hitting area on the clubs. It is brazed to stainless steel behind the hitting area which allows the face to flex more at impact, while the Speed Ramp sole design provides reduced turf interaction so the club can maintain its speed through the hitting area. The Tour Edge Exotics CBX fairway woods, Exotics CBX hybrids and Exotics CBX Iron-Woods are currently available at select authorized Tour Edge retailers.
